

Health Care– Social Issues

OFFICE: Interdisciplinary Programs, Literature Building, Second Floor, Room 3238, Warren College

Health care–social issues is an interdisciplinary minor designed to enhance students' competence in analyzing complex social and ethical implications and ramifications of health care issues, policies, and delivery systems. Students gain an understanding of how the economy, culture, technology, sociological and psychological processes influence modern health care. Although it is administered by Warren College, it is available to all UCSD students with a general interest in health care as well as to students considering health care careers. This minor offers UCSD students the opportunity to examine health care-related issues from the perspectives of a wide range of disciplines that include anthropology, contemporary issues, economics, ethnic studies, philosophy, psychology, sociology, urban studies, and science and technology. By bringing together course work from these academic departments, this interdisciplinary curriculum offers a breadth of intellectual experience that enhances students' undergraduate education and their preparation for professional and postgraduate education in health care professions.

Students should consult an academic adviser in their college provost's office to determine how the health care–social issues minor can best meet their college's graduation requirements. Declarations must first be reviewed and approved by the coordinator of Interdisciplinary Programs and then by the student's college academic advising office.

Students are strongly urged to supplement the health care–social issues minor with a health-related internship. The Academic Internship Program offers internship placements in clinical settings and with medical research teams that provide valuable experience, career clarification, and an opportunity to apply theories learned in course work. Juniors and seniors with at least a 2.5 overall grade-point average (some placements require a 3.0 GPA) are eligible and can earn from four to sixteen units of academic credit for the internship experience.

Further information on related programs and activities is available at the Interdisciplinary Programs Office, Literature Building, Second Floor,

Room 3238, Warren College, or call (858) 534-1704. Web site: <http://warren.ucsd.edu/health>

Health Care—Social Issues Minor Requirements

The minor consists of seven courses (three required and four electives). At least five courses must be taken at the upper-division level. Upper-division courses must not overlap with courses in the student's major and must be distributed in two or more disciplines. Lower-division elective courses that are not health-related (Economics 1A-B/Psychology 1–60) must be followed by a health-related upper-division course in the same department. For full descriptions of the following courses, please see departmental listings.

The health care–social issues minor is applicable as a Warren College program of concentration in the social sciences.

Required Courses

Sociology/L 40—Sociology of Health Care Issues

Philosophy 163—Bio-Medical Ethics
