

Advanced Placement Credit: Application to College and Major Requirements, 2014–15

The University of California grants credit for all College Board Advanced Placement Tests (AP) on which a student scores 3 or higher. The credit may be subject credit for use on a minor or prerequisite to a major, or credit toward general-education requirements or elective units toward graduation.

The number of units granted for AP tests are not counted toward the maximum number of credits required for formal declaration of an undergraduate major or the maximum number of units a student may accumulate prior to graduation. Students who enter the university with AP credit do not have to declare a major earlier than other students, nor are they required to graduate earlier.

A student cannot receive credit for a UC San Diego course that duplicates AP credit. Where the chart says “exempt” or “equal to a UC San Diego course number,” that course may not be taken for credit. Students who are fluent in a language other than English should not overlook the opportunity to get AP credit by taking the foreign/literature exams.

Note: Please see a college academic adviser for clarification of any questions you may have. Credit and/or placement listed is based on 2013–2014 exams.
