

Clinical Psychology

OFFICE: 2056 Basic Science Building
(858) 534-4044

Professors

Sonia Ancoli-Israel, Ph.D., *In-Residence/
Psychiatry*
Mark I. Appelbaum, Ph.D., *Psychology*
J. Hampton Atkinson, Jr., M.D., *In-Residence/
Psychiatry*
Ursula Bellugi, Ed.D., *Adjunct/Psychology*
Gary R. Birchler, Ph.D., *Clinical Psychiatry*
David L. Braff, M.D., *Psychiatry*
Karen Britton, M.D., Ph.D., *In-Residence/Psychiatry*
Gregory G. Brown, Ph.D., *In-Residence/Psychiatry*
Sandra Brown, Ph.D., *Psychology/Psychiatry*
Michael P. Caligiuri, Ph.D., *In-Residence/Psychiatry*
Eric Courchesne, Ph.D., *Neurosciences*
Dean C. Delis, Ph.D., *In-Residence/Psychiatry*
Joel E. Dimsdale, M.D., *In-Residence/Psychiatry*
Ann F. Garland, Ph.D., *In-Residence/Psychiatry*
Mark A. Geyer, Ph.D., *In-Residence/Psychiatry*
Eric L. Granholm, Ph.D., *In-Residence/Psychiatry*
Igor Grant, M.D., *Psychiatry*
Robert K. Heaton, Ph.D., *Psychiatry, Program
Director*
Terry L. Jernigan, Ph.D., *In-Residence/Psychiatry*
Dilip V. Jeste, M.D., *In-Residence/Psychiatry*
Lewis L. Judd, M.D., *Psychiatry, Chair*
Patricia A. Judd, Ph.D., *Clinical Psychiatry*
John R. Kelsoe, Jr., M.D., *Psychiatry*
James A. Kulik, Ph.D., *Psychology*
Saul Levine, M.D., *Psychiatry*
James B. Lohr, M.D., *In-Residence/Psychiatry*
Jeffrey E. Max, MBBch, *Psychiatry*
Paul J. Mills, Ph.D., *In-Residence/Psychiatry*
Mark G. Myers, Ph.D., *In-Residence/Psychiatry*
Lawrence A. Palinkas, Ph.D., *Family and
Preventive Medicine*
Barbara L. Parry, M.D., Ph.D., *In-Residence/
Psychiatry*
Thomas L. Patterson, Ph.D., *In-Residence/
Psychiatry*
Martin P. Paulus, M.D., *In-Residence/Psychiatry*
William Perry, Ph.D., *In-Residence/Psychiatry*
David P. Salmon, Ph.D., *In-
Residence/Neurosciences*
Laura Schreibman, Ph.D., *Psychology*
Marc A. Schuckit, M.D., *Psychiatry*

Larry R. Squire, Ph.D., *Psychiatry*
Murray B. Stein, M.D., *In-Residence, Psychiatry*
Joan Stiles, Ph.D., *Cognitive Science*
Neal R. Swerdlow, M.D., Ph.D., *Psychiatry*
Doris A. Trauner, M.D., *Neurosciences/Pediatrics*
Tamara L. Wall, Ph.D., *In-Residence/Psychiatry*
Sidney Zisook, M.D., *Psychiatry*

Associate Professors

Mark W. Bondi, Ph.D., *In-Residence/Psychiatry*
Sandra J. Brown, Ph.D., *Clinical Psychiatry*
David Feifel, M.D., *In-Residence/Psychiatry*
J. Vincent Filoteo, Ph.D., *In-Residence/Psychiatry*
John R. McQuaid, Ph.D., *Clinical Psychiatry*
Sharon Nichols, Ph.D., *Project Scientist/
Neurosciences*
Barton Palmer, Ph.D., *In-Residence/Psychiatry*
Georgia Sadler, M.D., *Clinical Surgery*
Susan F. Tapert, Ph.D., *In-Residence/Psychiatry*
Shu-Hong Zhu, Ph.D., *Adjunct/Family and
Preventive Medicine*

Assistant Professors

Natacha Akshoomoff, Ph.D., *Adjunct/Psychiatry*
Leslie J. Carver, Ph.D., *Psychology*
Sean Drummond, Ph.D., *In-Residence/Psychiatry*
Tamar Gollan, Ph.D., *Adjunct/Psychiatry*
Frank Haist, Ph.D., *Adjunct/Psychiatry*
Ariel J. Lang, Ph.D., *In-Residence/Psychiatry*
Thomas D. Marcotte, Ph.D., *Adjunct/Psychiatry*
Kristen McCabe, Ph.D., *Adjunct/Psychiatry*
Gregory J. Norman, Ph.D., *Assistant Adjunct,
Family and Preventive Medicine*
Thomas Rutledge, Ph.D., *In-Residence/Psychiatry*
Brian C. Schweinsburg, Ph.D., *Assistant
Adjunct/Psychiatry*
Susan F. Tapert, Ph.D., *In-Residence/Psychiatry*
Julie Wetherell, Ph.D., *In-Residence/Psychiatry*

Professional Researcher

Jeanne Townsend, Ph.D., *Associate Research
Scientist/Neurosciences*

The Joint Doctoral Program

The interdisciplinary partnership of the Department of Psychiatry at the UCSD School of Medicine and the Department of Psychology at San Diego State University greatly extends the range of perspectives and furnishes unusual opportunities for graduate study leading to the Ph.D. degree in clinical psychology. The Joint Doctoral Group in Clinical Psychology currently

consists of faculty from the UCSD Department of Psychiatry, School of Medicine, and the Departments of Neurosciences, Cognitive Science, Family and Preventive Medicine, and Psychology, and the SDSU Department of Psychology and School of Public Health.

Information regarding admission is found in the current edition of the Bulletin of the Graduate Division of San Diego State University and at our Web site: www.psychology.sdsu.edu/doctoral.

The program goal is to train clinical psychologists who are accomplished both as clinicians and as research scientists. The curricula and training provide a strong foundation in clinical psychological concepts, methods, theories, and data, together with intensive concentrations in specialized areas of clinical psychology. Currently our program has three areas of specialization: behavioral medicine, neuropsychology, and experimental psychopathology.

The scientist-practitioner model on which this program is based requires that students receive ongoing supervised research experience, including planning, design, implementation, analysis, and communication of findings. Equally important is extensive supervised experience aimed at developing sound general and specialized clinical skills. Students are expected to be actively involved in all these activities throughout their tenure in the program.

The program is designed as a five-year curriculum, including a one-year clinical internship. The curriculum is based on a twelve-month academic year. The program is accredited by the American Psychological Association.

Specific courses currently required as part of the core at UCSD include: Clinical Psychology 294A,B,C, (required for neuropsychology track majors only); Clinical Psychology 296 (independent study, lab practicum); Clinical Psychology 299 (independent study project); School of Medicine 202E (Psychopathology).

Ph.D. Time Limit Policies

Students must be advanced to candidacy by the end of five years. Total University support cannot exceed six years. Total registered time at UCSD cannot exceed seven years.

COURSES

For course descriptions not found in the 2006–2007 General Catalog, please contact the department for more information.

Clinical Psychology 205. Neuroanatomy (6)

Fundamental anatomy/physiology of human nervous system, emphasizing higher cortical functions. Methods of clinical problem solving in neurology; background in basic neuropsychological skills.

Clinical Psychology 294. Pro-Seminar in Neuropsychology (3)

Year-long course (294A,B,C), each for three credits, offered sequentially fall, winter, spring. Provides a fundamental knowledge of brain-behavior relationships as well as strategies and methods of neuropsychological assessment and rehabilitation.

School of Medicine 202E. Social and Behavioral Sciences–Psychopathology (3)

This sequence will acquaint students with techniques of interviewing, concepts of mental illness and normality, basic research in causality of behavioral disorders, and approaches to treatment, all in the context of a bio-psycho-social frame of reference. Format combines a lecture followed by smaller group sessions with a faculty leader. The groups enable students to meet patients with behavioral disorders, to practice interviewing, to develop observational skills, and to discuss material presented in lectures and assigned readings. (S/U grades only.) *Prerequisite: SOM 202A,C,D or consent of instructor.*

Clinical Psychology 296. Independent Study (1-12)

Independent survey of basic concepts in clinical psychology using various sources of material, including scientific papers in clinical psychology and behavioral science and other sources as seem indicated.

Clinical Psychology 299. Graduate Research (1-12)

Individual study course under one or more of the joint doctoral program faculty to develop certain research questions, design a methodology to answer the questions, and then carry out actual research, data reduction, and analysis.
