Distinguished Teachers in Residence

Kathy Melanese, M.A. Campbell Naismith, M.A.

Education Studies (EDS) at UCSD offers the Master of Education Degree/California Preliminary Multiple Subject Teaching Credential for elementary school teachers, the Master of Education Degree/California Preliminary Single Subject Credential in English, mathematics, biology, chemistry, geosciences, and physics for secondary school teachers, the Master of Arts in teaching and learning with an emphasis in curriculum design, the Master of Arts in deaf education, the Doctor of Education (Ed.D.) in teaching and learning, the Doctor of Education in educational leadership, and a minor in education.

A primary focus of Education Studies is multicultural education. We require candidates to master the subject matter that they will teach and develop a repertoire of teaching practices which use their students' cultural knowledge and language as educational resources.

Admissions Process

February 1 is the application deadine for the M.Ed./Credential programs. All applicants must apply online at http://eds.ucsd.edu

Applicants interested in financial aid should complete the FAFSA application by March 2, and may contact Graduate Student Financial Services at (858) 534-3807.

Each applicant is carefully reviewed for admission by a committee. The selection committee ensures that applicants have completed the requirements for admission described below and evaluates each applicant on the basis of the following criteria:

1. A strong interest in multicultural approaches to education; a strong desire to improve the

- quality of American education; a strong desire to develop self-activated learners;
- Experience working with children in educational environments, especially with students from diverse backgrounds;
- 3. Participation in public service activities;
- 4. Academic excellence in their undergraduate and graduate studies.

More information about the entire application process is available on the EDS Web site at http://eds.ucsd.edu.

The Master of Education (M.Ed.)

The M.Ed. articulates with Preliminary Multiple Subject and Preliminary Single Subject credential programs. It is a rigorous 15- to 24-month professional degree program designed specifically for preservice elementary and secondary teachers earning their initial teaching credential at UCSD. This course of study allows candidates to earn a Preliminary teaching credential and the M.Ed. degree from UCSD prior to entering the teaching profession. The program requires applicants with strong subject matter preparation.

PREREQUISITE REQUIREMENTS FOR GRADUATE PRELIMINARY CREDENTIAL PROGRAMS

Master of Education/Preliminary Multiple Subject (Elementary) Credential

 UCSD Undergraduates: Students working toward any major at UCSD may complete the prerequisite Preliminary Multiple Subject Credential admission requirements and Educational Foundations courses while they are undergraduates.

Preliminary Multiple Subject Credential Prerequisite Requirements

 Undergraduates completing any major at UCSD may complete the prerequisite requirements for the Preliminary Multiple Subject Credential prior to completing their degree. Candidates who have already received a Bachelor of Arts or Science from any University of California campus, or an appropriate equivalent degree from another institution, must apply for graduate status as a M.Ed. Preliminary Multiple Subject credential student. Examples of majors not eligible for application to EDS include Business, Education, Liberal Studies, Marketing, and Recreation.

A 3.0 cumulative GPA is required from the institution awarding the bachelor's degree.

2. Subject Matter Competence:

This requirement is satisfied by providing evidence of satisfactory completion of the California Subject Examinations for Teachers (CSET).

3. The California Basic Educational Skills Test (CBEST):

Evidence of passing the CBEST satisfies this requirement.

4. U.S. Constitution requirement:

This requirement is satisfied by either:

- Completion of a course covering the provisions and principles of the U.S. Constitution, or
- Passage of an appropriate exam offered through the County Office of Education (Contact the EDS office for information.)
- 5. Sensitivity to second language learning:

Applicants must demonstrate, through course work or equivalent experience, an informed sensitivity to the challenges of second language learning and acquisition. This can be fulfilled in one of three ways:

- Completion of nine quarter units of college course work in a single language that is not the applicant's native language, or
- Completion of three years of secondary school course work in a language other than English. The course work must be taken in grades 7 through 12, with at least a B average, or
- Demonstration of an "equivalent experience" in a second language situation.
 Applicants who wish to satisfy this requirement by one of the three options listed below must submit an essay that describes the length and circumstances of the experience, including at least three specific examples of situations that helped

you gain personal knowledge and appreciation of issues surrounding second language acquisition in a diverse cultural setting. The three equivalent experience options are:

- The applicant has lived for prolonged period of time in a country where the language spoken was not native to the applicant, and where the applicant was continuously required to speak that second language (e.g., Peace Corps).
- The applicant has had an extended experience immersed in a multilingual community in his/her native country.
- iii. The applicant was raised in a multilingual community.
- 6. Satisfactory scores on the Graduate Record Exam (GRE) General Test
- 7. Prerequisites for BCLAD Emphasis in Spanish or American Sign Language options:

These emphases are designed for students who have sufficient bilingual skills to effectively teach in English and either Spanish or American Sign Language. Students interested in applying for admission to the BCLAD program must demonstrate:

- a. Spanish or American Sign Language fluency:
 - i. Spanish: Completion of two Spanish literature courses (Spanish/English BCLAD only), at least one of which must be upper-division in either Latin American or Chicano literature, and completion of the EDS Spanish Language Assessment, with an FSI score of at least 3 (scores of 3- will be accepted, but students must receive a score of 3 prior to being recommended for the BCLAD credential). Since these exams are coordinated by EDS, please contact EDS in January prior to your application to the credential program.
 - ii. American Sign Language: Completion of the EDS American Sign Language assessment with a rating of "acceptable" by a panel of assessors

b. Cultural Knowledge:

 Spanish: One history course and one culture course covering Chicano or Latin American-related topics

- ii. American Sign Language: At least one course on the language or culture of deaf people in the U.S. or intensive experience living among deaf people in the U.S.
- c. History, Politics, and Theory of Bilingual Education: EDS 125 or ETHN 140.
- d. A desire to teach in a bilingual setting.
 Note: A grade of B or higher is required for all BCLAD courses.

Educational Foundations Courseof-Study for M.Ed./Preliminary Multiple Subject (Elementary) Credential Candidates

UCSD students planning to apply to the M.Ed./
Preliminary Multiple Subject (elementary)
Credential Program must complete the
Introduction to Teaching and Learning requirement listed in a below and one course from each of the remaining three areas, b, c, and d (see Table 1 for a sample schedule). Graduate students admitted as prerequisite candidates may satisfy the Multiple Subject prerequisite requirements as an academic year program or through an intensive summer program of defined coursework (contact EDS for admission requirements and scheduling). A minimum 3.0 GPA for all prerequisite coursework is required for admission to the EDS credential program.

a. Introduction to Teaching and Learning. Three
 of the following courses and a corequisite
 practicum for each:

EDS 130. Introduction to Academic Mentoring of Elementary School Students

or

EDS 134. Introduction to Literacy and Numeracy Tutoring (recommended for Multiple Subject candidates)

and

and

EDS 128A-B. Introduction to Teaching and Learning (EDS 130 [or 134] is a prerequisite for EDS 128A and cannot be taken concurrently. EDS 128A and 128B are restricted to students applying to EDS at UCSD and must be taken in the year of application to the program.)

EDS 139. Practicum in Teaching/Learning

EDS 139. Practicum in Teaching/Learning (corequisite for EDS 130 or 134 and EDS 128A-B)

b. Learning Environments. *One* of the following courses or equivalent:

EDS 114. Cognitive Development and Interactive Computing Environments (recommended for Multiple or Single Subject candidates)

EDS 115. Cognitive Development and Education (recommended for Multiple Subject candidates)

EDS 118. Adolescent Development and Education (recommended for Single Subject candidates)

EDS/LIGN 119. First and Second Language Learning: From Childhood through Adolescence (recommended for Single Subject candidates)

CogSci. 154. Communication Disorders in Children and Adults (same as Psy. 174)

COMT 116 Practicum in Child Development (same as HDP 135/Psy. 128)

HDP 1. Introduction to Human Development Psychology 101. Introduction to Developmental Psychology

c. Language and Culture. *One* of the following courses or equivalent:

EDS/SocB 117. Language, Culture and Education (recommended for all credential candidates)

EDS 125. History, Politics, and Theory of Bilingual Education (or ETHN 140 required for candidates preparing to teach in bilingual classrooms)

ANGN 117. Anthropology of Education (recommended for all credential candidates)

ANGN 149. Language in Society

COHI 121. Literacy, Social Organization, and the Individual

COHI 114. Bilingual Communication

Ethnic Studies 141. Language and Culture

d. School and Society. *One* of the following courses or equivalent:

EDS/SocC. 126. Social Organization of Education (recommended for credential candidates)

ECON 147. Economics of Education

ANGN 112. Language, Identity, and Community

ETHN 140. Language and American Ethnicity (or EDS 125 required for candidates preparing to teach in bilingual classrooms)

ETHN 144. Bilingual Communities in the U.S.A.

Table 1: Sample Course-of-Study for Preliminary Multiple Subject (Elementary) Credential

^{*} Offered various quarters. See other options above.

Professional Preparation

After students complete the prerequisites described above, they apply to the program, as described above. Upon acceptance, teacher candidates complete the professional preparation activities which lead to the award of the Preliminary Multiple Subject credential.

The professional preparation component of the Preliminary Multiple Subject credential consists of five courses and fifteen weeks of student teaching in elementary school classrooms.

Additional Requirements for BCLAD Candidates

Students pursuing the BCLAD emphasis in Spanish must also take EDS 152A-B (*Bilingual Instructional Practices*). Furthermore, BCLAD candidates will be placed in bilingual student teaching situations.

A typical student schedule for the professional preparation program is shown in Table 1:

Table 1: Schedule of Professional
Preparation Activities for the M.Ed./
Preliminary Multiple Subject Credential

EDS 152A (2) EDS 152B (2)

Master of Education/ Preliminary Single Subject (Secondary) Credential

 UCSD Undergraduates: Students working towards a Literature, Linguistics, Mathematics, or any Science major at UCSD may complete the prerequisite Single Subject Credential requirements while they are undergraduates.

Preliminary Single Subject Credential Prerequisite Requirements

- Undergraduates working toward selected majors at UCSD may complete the prerequisite requirements for the Preliminary Single Subject Credential prior to completing their degree. Students must be working toward a major in the discipline corresponding to that of the desired credential:
 - English: any UCSD Literature or Linguistics major, or equivalent
 - Mathematics: any UCSD Mathematics,
 Engineering, or Computer Science major,
 or equivalent,
 - Biology, Chemistry, Geosciences, or Physics: any UCSD Natural Science major, or equivalent.

Candidates who have already received a literature, linguistics, mathematics, or science Bachelor of Arts or Science degree from any University of California campus, or an appropriate equivalent degree from another institution, must apply for graduate status as an M.Ed./Preliminary Single Subject credential student.

A 3.0 cumulative GPA is required from the institution awarding the bachelor's degree.

2. Subject Matter Competence:

This requirement is satisfied by either:

- providing evidence of satisfactory completion of the appropriate sections of the California Subject Examinations for Teachers (CSET)
- having completed all of the subject matter preparation program for the desired single subject credential.

3. The California Basic Educational Skills Test (CBEST):

Evidence of passing the CBEST satisfies this requirement.

- 4. U.S. Constitution requirement:
 - completion of a course covering the provisions and principles of the U.S. Constitution
 - passage of an appropriate exam offered through the County Office of Education (Contact the EDS office for information.)
- 5. Sensitivity to second language learning:

Applicants must demonstrate, through course work or equivalent experience, an informed sensitivity to the challenges of second language learning and acquisition. This can be fulfilled in one of three ways:

- completion of nine quarter units of college course work in a single language that is not the applicant's native language or
- completion of three years of secondary school course work in a language other than English. The course work must be taken in grades 7 through 12, with at least a B average
- demonstration of an "equivalent experience" in a second language situation.
 Applicants who wish to satisfy this requirement by one of the three options listed below must submit an essay that describes the length and circumstances of the experience, including at least three specific examples of situations that helped you gain personal knowledge and appreciation of issues surrounding second language acquisition in a diverse cultural setting. The three equivalent experience options are:
 - The applicant has lived for a prolonged period of time in a country where the language spoken was not native to the applicant, and where the applicant was continuously required to speak that second language (e.g., Peace Corps).
 - The applicant has had an extended experience immersed in a multilingual community in his/her native country.

- iii. The applicant was raised in a multilingual community.
- 6. Satifactory scores on the Graduate Record Exam (GRE) General Test.
- 7. Prerequisites for BCLAD Emphasis in Spanish: This emphasis is designed for students who have sufficient bilingual skills to effectively teach in English and Spanish. Students interested in applying for admission to the BCLAD program must demonstrate:
 - a. Spanish Language Fluency:
 - Completion of two Spanish literature courses, at least one of which must be upper-division in either Latin American or Chicano literature, and
 - ii. Completion of the EDS Spanish Assessment, with an FSI score of at least 3 (Scores of 3- will be accepted, but student must receive a score of 3 prior to being recommended for the BCLAD credential.) Since these exams are coordinated by EDS, please contact EDS in January prior to application to the credential program.
 - b. Cultural Knowledge: One history course and one culture course covering Chicano or Latin American-related topics.
 - c. History, Politics, and Theory of Bilingual Education: EDS 125 or ETHN 140.
 - d. A desire to teach in a bilingual setting.
 Note: A grade of B or higher is required for all BCLAD courses.

Educational Foundations Courseof-Study for M.Ed./Preliminary Single Subject (Secondary) Credential Candidates

UCSD students planning to apply to the M.Ed./Preliminary Single Subject (secondary) Credential Program must complete the *Introduction to Teaching and Learning* requirement listed in **a** below and one course from each of the remaining three areas, **b**, **c**, and **d** (see Table 2 for a sample schedule). A minimum 3.0 GPA for all prerequisite coursework is required for admission to the EDS credential program.

a. Introduction to Teaching and Learning. Three
 of the following courses and a corequisite
 practicum for each:

EDS 129 A-B-C. Introduction to Teaching and Learning (EDS 129B and 129C are restricted to students applying to EDS at UCSD and must be taken in the year of application to the program.)

EDS 136. Introduction to Academic Tutoring of Secondary School Students or EDS 138. Introduction to Academic Tutoring at the Preuss School (may be substituted for EDS 129A only)

and

EDS 139. Practicum in Teaching/Learning (corequisite for EDS 129 A-B-C and EDS 136) and

EDS 190. Research Practicum (take concurrently with EDS 129C)

b. Learning Environments. *One* of the following courses or equivalent:

EDS 114. Cognitive Development and Interactive Computing Environments (recommended for Multiple or Single Subject candidates)

EDS 115. Cognitive Development and Education (recommended for Multiple Subject candidates)

EDS 118. Adolescent Development and Education (recommended for Single Subject candidates)

EDS/LIGN 119. First and Second Language Learning: From Childhood through Adolescence (recommended for Single Subject candidates)

CogSci. 154. Communication Disorders in Children and Adults (same as Psy. 174)

COMT 116. Practicum in Child Development (same as HDP 135/Psy. 128)

HDP 1. Introduction to Human Development Psychology 101. Introduction to Developmental Psychology

c. Language and Culture. *One* of the following courses or equivalent:

EDS/SocB. 117. Language, Culture and Education (recommended for credential candidates)

EDS 125. History, Politics, and Theory of Bilingual Education (or ETHN 140 required for candidates preparing to teach in bilingual classrooms)

ANGN 117. Anthropology of Education

ANGN 149. Language in Society

COHI 121. Literacy, Social Organization, and the Individual

COHI 114. Bilingual Communication

ETHN 141. Language and Culture

d. School and Society. *One* of the following courses or equivalent:

EDS/SocC. 126. Social Organization of Education (recommended for credential candidates)

ECON 147. Economics of Education

ANGN 112. Language, Identity, and Community

ETHN 140. Language and American Ethnicity (or EDS 125 required for candidates preparing to teach in bilingual classrooms)

ETHN 144. Bilingual Communities in the U.S.A.

Table 2: Sample Course-of-Study for Preliminary Single Subject (Secondary) Credential

^{*}Offered various quarters. See options above.

Internship and Student Teaching Programs

Those admitted to the M.Ed./Preliminary Single Subject Credential Program are eligible to be interviewed in June, July, and August for a paid internship for the following school year, in a local middle or high school. Availability of internship positions in not guaranteed, though EDS attempts to facilitate internship positions for all Single Subject students. Students who do not receive an internship position will do their practicum as student teachers instead. Interns are responsible for teaching English, mathematics, biology, chemistry, geosciences, or physics courses under the guidance of an EDS supervisor and an on-site adviser. Interns, who are generally hired for part-time teaching loads, receive a salary from the school district commensurate with the number of courses they teach.

Professional Preparation Courses

Once students are selected, they are provided an intensive program of professional preparation, including a full-time summer program of teaching methods courses and seminars offered throughout the academic year which address classroom management techniques and strategies for dealing with concrete teaching and learning situations.

A typical student schedule for the Preliminary Single Subject Professional Preparation Program is shown in Table 2.

Minor in Education Studies

UCSD undergraduate students who are interested in pursuing a teaching credential should refer to the appropriate elementary or secondary Educational Foundations course of study when selecting courses for the minor. Contact EDS for details.

Education Studies offers a Minor in Education Studies that requires a minimum of twenty-eight units, twenty units of which must be upper-division. All courses for the minor must be taken for a letter grade except EDS 139. Students must complete a course-of-study that includes a minimum of one course in category **a** below and a minimum of one course from two of the remaining three categories **b**, **c**, **or d**. The EDS minor requires a minimum of twelve units in EDS courses. A maximum of eight units of practicum (EDS 139) may be applied to the minor.

a. Introduction to Teaching and Learning

One of the following courses (four quarter units) and corequisite practicum EDS 139 (two quarter units)

EDS 128 A-B. Introduction to Teaching and Learning (Elementary). (EDS 130 [or 134] is a prerequisite for EDS 128A and cannot be taken concurrently. EDS 128A and 128B are restricted to students applying to EDS at UCSD and must be taken in the year of application to the program.)

EDS 129 A-B-C Introduction to Teaching and Learning (Secondary) (It is preferable that 129A be taken in the fall quarter of senior year. EDS 129B and 129C are restricted to students applying to EDS at UCSD and must be taken in the year of application to the program.)

EDS 130. Introduction to Academic Mentoring of Elementary School Students

EDS 134. Introduction to Literacy and Numeracy Tutoring (recommended for Multiple Subject candidates)

EDS 136. Introduction to Academic Tutoring of Secondary School Students

EDS 138. Introduction to Academic Tutoring of Preuss School Students

and

EDS 139. Practicum in Teaching/Learning

b. Learning Environments

EDS 114. Cognitive Development and Interactive Computing Environments (recommended for Multiple or Single Subject candidates)

EDS 115. Cognitive Development and Education (recommended for Multiple Subject candidates)

EDS 118. Adolescent Development and Education (recommended for Single Subject candidates)

EDS 119/LIGN 119. First and Second Language Learning: From Childhood through Adolescence (recommended for Single Subject candidates)

CogSci. 154. Communication Disorders in Children and Adults (same as Psy. 174)

COMT 116. Practicum in Child Development (same as HDP 135/Psy. 128)

HDP 1. Introduction to Human Development

Psy. 101. Introduction to Developmental Psychology

c. Language and Culture

EDS/SocB. 117. Language, Culture and Education (recommended for all EDS credential candidates)

ETHN 144. Bilingual Communities in the U.S.A.

The Master of Arts in Teaching and Learning: Curriculum Design

The M.A. in Teaching and Learning (Curriculum Design) offers professional educators in elementary and secondary schools an extensive overview of principles of educational research and curriculum design.

A key feature of the M.A. program is the integration of research and practice. M.A. students remain full-time teachers for the duration of the program. They design, implement, and evaluate curricular innovations in their own classrooms. The culmination of the M.A. work is a thesis describing the rationale, development, and effectiveness of these innovations.

Examples of M.A. Research Projects

The topics of the M.A. theses in past years are varied, and have included: multimedia

approaches to secondary biology and chemistry instruction; writing revision among emergent writers; building partnerships between families and schools; activities which link home and school experiences in the content areas of reading and writing, mathematics, science, and social studies; improved integration of curriculum and assessment; motivation and art; using technology for mathematics and geography teaching; and embedding ESL in native language instruction.

The M.A. Course of Study (Teaching and Learning: Emphasis in Curriculum Design)

The M.A. program requirements consist of forty quarter units of course work, including the master's thesis. Courses are usually offered for 4.0 quarter units of credit, and are typically offered one night per week, from 5:00–8:00 p.m. Core course work comprises twenty-eight units, with the remaining twelve units consisting of elective course work.

A typical program consists of:

CORE M.A. COURSE WORK

First Summer (mid June-late August)

EDS 231 Advanced Instructional Practices

EDS 232 Special Topics in Education (offered alternating summers)

EDS 229 Introduction to Educational Resources

Fall, Winter, and Spring:

EDS 230A-B-C Research in Curriculum Design EDS 233A-B Topics in Education Research and Design

EDS 290 Research Practicum

Second Summer (mid June–late August)

EDS 231 Advanced Instructional Practices

EDS 232 Special Topics in Education (offered alternating summers)

EDS 295 M.A. Thesis

Completion of M.A. thesis writing.

Admission to the M.A. program in teaching and learning at UCSD is competitive. Factors considered by the selection committee include:

- teaching experience
- professional development activities
- experience and interest in curriculum design
- · academic record

Admission to graduate standing at UCSD requires a minimum cumulative GPA of 3.0 for any prior graduate work, and for the bachelor's degree. Official scores from the GRE verbal, analytic, and quantitative sections are also required. Application deadline is February 1.

The Master of Arts in Teaching and Learning: Bilingual Education (ASL-English)

Education Studies (EDS) at UCSD offers a master of arts in teaching and learning: bilingual education emphasis (ASL-English) and the California Deaf and Hard-of-Hearing Specialist Teaching Credential and the Preliminary Multiple Subject Teaching Credential with BCLAD emphasis for elementary school teachers. This program of study includes extensive practicum experience combined with the latest research and innovation in bilingual education and deaf education. Students in the program participate in research and development on the leading edge of bilingual, multicultural education for deaf and hard-of-hearing children.

In keeping with its aim of training teachers who will be able to meet the needs of deaf and hard-of-hearing children from various language and cultural backgrounds, EDS requires fluency in ASL for acceptance into the program. The EDS teacher training program is designed to prepare teachers to work in various types of school settings from residential school classrooms to local public school classrooms for deaf and hard-of-hearing children. EDS recognizes that deaf and hard-of-hearing children need teachers who are themselves bilingual and knowledgeable about the role of culture in human development.

Prerequisite Course of Study Education Foundations Sequence

Prior to admittance to the credential and master's study, prerequisite students (or UCSD undergraduates pursuing the minor in education studies) complete the following five courses offered during the first summer.

ED3 120A-D.	Introduction to Teaching and Learning (Elementary)
EDS 115:	Cognitive Development and Education
EDS 117:	Language, Culture and Education
EDS 125:	History, Politics, and Theory of Bilingual Education

Program of Study for the Deaf and Hard-of-Hearing Specialist Credential, the Preliminary Multiple Subject Teaching Credential with BCLAD Emphasis, and the Master of Arts in Teaching and Learning.

After completion of the prerequisite component, students complete a program of study resulting in the California Deaf and Hard-of-Hearing Specialist Credential at the elementary level. Students also qualify for the Preliminary Multiple Subject (BCLAD) credential.

This program of study consists of courses in bilingual education theory, methods, and applications to deaf education in addition to intensive classroom practice. During the second year of study the focus is on designing, implementing and evaluating a research-based project. This integration of research and practice is central to the goal of the M.A. program to develop teachers as researchers.

A typical program of study includes:

YEAR 1

EDS 295: M.A. Thesis

Admission Requirements

Candidates will apply to graduate admission to the prerequisite component of this program. Upon satisfactory completion of the prerequisite component, students will advance to the professional component and master's component which require two years of study. The following are the minimum eligibility requirements to for admission to the graduate prerequisite component. Applications are available beginning in January. Application deadline is February 1.

- A bachelor's degree with a 3.0 cumulative GPA
- · Official Graduate Record Exam (GRE) scores
- Subject matter competence (CSET)
- · The California Basic Educational Skills Test (CBEST)
- · Completion of a course including the provisions and principles of the U.S. Constitution, or passage of the appropriate exam
- Official Graduate Application and Fee

- Statement of Purpose and Reference Letters
- Fluency in American Sign Language
- Knowledge and experience of the social and cultural life of deaf people
- · A desire to teach deaf children of varying language and cultural backgrounds

Admission to graduate standing at UCSD requires a minimum cumulative GPA of 3.0 for any prior graduate work, and for the bachelor's degree. Official scores from the GRE verbal, analytic, and quantitative sections are also required.

Doctor of Education (Ed.D.) in Teaching and Learning

Education Studies at UCSD offers a Doctor of Education (Ed.D.) degree in Teaching and Learning. This cohort-based four-year doctorate is designed to enable professional educators to participate in a research-based program while working in an educational setting. The Ed.D. course of study provides a research perspective on educational reform, with the expectation of developing regional leadership for K-12 and postsecondary teaching and learning. With its rich tradition of research and technological innovation, UCSD is uniquely positioned in the region to provide the research expertise for this Ed.D. program.

The Doctor of Education in Teaching and Learning program provides professional educators with the knowledge and skills to serve as faculty of pre-service teacher education and leaders of professional development for practicing teachers. Students take courses which address the topics of school reform and educational equity; learning and educational technology; curriculum research and theory; qualitative and quantitative research methods; cognition and learning theory; the social organization of schooling; language and culture; and research on teaching and learning. The application deadline is February 1.

The following is a typical course of study:

YEAR 1

Summer

EDS 229:	Introduction to Educationa
	Resources

EDS 231: Advanced Instructional Practices

or

EDS 232: Special Topics in Education

(offered alternating summers)

Fall, Winter, and Spring

EDS 230A-B-C: Research in Curriculum Design

Summer

EDS 295: M.A. Thesis

EDS 231: Advanced Instructional Practices

or

EDS 232: Special Topics in Education

(offered alternating summers)

YEAR 2

Fall

EDS 260A: Educational Research and

Evaluation Design

EDS 270: Leadership and Equity in

Educational Reform

Winter

EDS 260B: Educational Research and

Evaluation Design

Elective Graduate Seminar

Spring

EDS 260C: Educational Research and

Evaluation Design

Elective Graduate Seminar

YEAR 3

Fall, Winter, and Spring

EDS 261A-B-C: Advanced Research and Evaluation Methods

Elective Graduate Seminar

YEAR 4

Fall, Winter, and Spring

EDS 262A-B-C: Dissertation Writing Seminar

EDS 299: Dissertation Research

Doctor of Education (Ed.D.) in Educational Leadership

The Doctor of Education in Educational Leadership is offered through a partnership among UCSD, California State University, San Marcos (CSUSM), and San Diego State University (SDSU). The program is designed as a professional degree for P-12 and postsecondary educators who will develop advanced leadership and research skills related to their own institutional settings. Students will typically be mid-career working professional educators who will attend classes on weeknights and weekends over a thirty-six-month period. Students will take courses designed to develop four specific leadership capacities: (1) leadership for learning; (2) leadership for a diverse society; (3) leadership for organizational change; and (4) leadership for organizational development. This program prepares leaders for culturally, linguistically, and economically diverse educational settings. Students will conduct research on professional practice within their own institutions, addressing specific local problems that have national implications for teaching and learning, school reform, and professional development. Students completing the program will receive a joint degree from either UCSD and CSUSM, or UCSD and SDSU. The application deadline is August 1.

The following is a typical course of study taught by UCSD, SDSU, and CSUSM faculty:

YEAR 1

Winter

EDS 280: Re-Thinking Leadership

EDS 287A: Educational Research and Evaluation

Design

EDS 291A: Leadership Research Practicum

Spring

EDS 281: Leadership for Learning

EDS 287B: Educational Research and Evaluation

Design

EDS 291B: Leadership Research Practicum

Summer

EDS 282: Leadership for a Diverse Society

EDS 287C: Educational Research and Evaluation

Design

EDS 291C: Leadership Research Practicum

Fall

EDS 286: Advanced Topics in Leadership

EDS 292: Qualifying Paper Preparation

YEAR 2

Winter

EDS 283: Leadership for Organizational Change

EDS 288A: Advanced Research and Evaluation Methods

EDS 293A: Advanced Leadership Practicum

Spring

EDS 284: Leadership for Organizational Development

EDS 288B: Advanced Research and Evaluation Methods

EDS 293B: Advanced Leadership Practicum

Summer

EDS 285: Leadership for the Future

EDS 288C: Advanced Research and Evaluation

Methods

EDS 293C: Advanced Leadership Practicum

Fall

EDS 286: Advanced Topics in Leadership

EDS 299: Dissertation Research

YEAR 3

Winter

EDS 299: Dissertation Research

EDS 289A: Dissertation Writing Seminar

EDS 294A: Colloquium on Educational

Leadership

Spring

EDS 299: Dissertation Research

EDS 289B: Dissertation Writing Seminar

EDS 294B: Colloquium on Educational

Leadership

Summer

EDS 299: Dissertation Research

EDS 289C: Dissertation Writing Seminar

EDS 294B: Colloquium on Educational

Leadership

Fall

EDS 299: Dissertation Research

EDS 289D: Dissertation Writing Seminar

COURSES

For course descriptions not found in the 2006–2007 General Catalog, please contact the department for more information.

The following courses are offered by the EDS faculty. Students are advised to consult with an EDS adviser to determine which courses satisfy credential requirements. Undergraduate students may enroll in graduate seminars with the consent of instructor.

UPPER-DIVISION

COHI 124. Voice: Deaf People in America (4)

The relationship between small groups and dominant culture is studied by exploring the world of deaf people who have for the past twenty years begun to speak as a cultural group. Issues of language, communication, self-representation, and social structure are examined. *Prerequisite: Com/HIP 100 or consent of the instructor.*

EDS 20. Introduction to Principles of Learning (4)

Students will study discipline-specific principles of effective learning, including critical thinking, problem solving, collaboration and group communication, laboratory and hypothesis testing, library research and writing skills, and self-assessment. Students will explore concepts and procedures in mathematics, science, and economics as the context for making explicit these often-tacit principles of learning. *Prerequisite: Summer Bridge participation.*

EDS 39. Practicum in Science and Math Teaching/Learning (2)

Undergraduate students are placed in local schools and work with children in classrooms and the community. Students work on educational activities with K-12 students a minimum of 20 hours/quarter. Prerequisites: department stamp; concurrent enrollment in either Math 87: Teaching Math: The Challenge, or Chem 87: Teaching Science: The Challenge.

EDS 87. Freshman Seminar (1)

The Freshman Seminar Program is designed to provide new students with the opportunity to explore an intellectual topic with a faculty member in a small-seminar setting. Freshman seminars are offered in all campus departments and undergraduate colleges, and topics vary from quarter to quarter. Enrollment is limited to 15-20 students, with preference given to entering freshmen. Seminars are open to sophomores, juniors, and seniors on a space-available basis.

EDS 105. Teaching and Learning Physics (4)

(Same as PHYS 180.) A course on how people learn and understand key concepts in Newtonian mechanics. Reading in physics and cognitive science plus fieldwork teaching and evaluating K–12 students. Useful for students interested in teaching. *Prerequisite: Phys. 1A, 2A, or 4A or consent of the instructor.*

EDS 109. Teaching Physical Education (4)

This course is designed to assist future elementary teachers and recreation fitness leaders develop quality

physical education programs for children. Instruction focuses on theory and practice of movement activities that are physically and emotionally safe, health promoting, and developmentally appropriate.

EDS 114. Cognitive Development and Interactive Computing Environments (4)

Learning and development considered as an evolving interplay between "internal representations" and "external representations" of the world, with special attention devoted to the design, history, and educational implications of computer-based tools and learning environments. Prerequisite: upper-division standing.

EDS 115. Cognitive Development and Education (4)

This course examines the development of thinking and language in preschool and elementary school children, with implications for education. Themes include facilitating children's learning, and individual differences in cognition. Examples of topics covered are word learning, mathematical knowledge, and scientific thinking. Letter grade only.

EDS 116. The Psychology of Teaching and Structures of Information for Human Learning (0-4)

College students tutoring college students. Curriculum: basic applied learning principles, specifying objectives, planning and designing instruction, testing, evaluation, interpersonal communication skills, study skills. Objectives will be assessed by project completion and practicum feedback. This course is not creditable toward professional preparation requirements for the multiple subject credential. Prerequisite: departmental approval (consent of instructor)—department stamp restriction.

EDS 117. Language, Culture, and Education (4)

(Same as Soc/B 117) The mutual influence of language, culture, and education. Explanations of students' school success and failure that employ linguistic and cultural variables, bilingualism, and cultural transmission through education are explored.

EDS 118. Adolescent Development and Education (4)

This course introduces prospective secondary teachers to the cognitive, social, and emotional development of adolescents, including developmental learning theory, the teaching/learning process, effective learning environments, and cross-cultural variation in development. Implications for classroom practice are drawn.

EDS/LIGN 119. First and Second Language Learning: From Childhood through Adolescence (4)

An examination of how human language learning ability develops and changes over the first two decades of life, including discussion of factors that may affect this ability. *Prerequisite: upper-division standing or consent of instructor.*

EDS 125. History, Politics, and Theory of Bilingual Education (4)

This course provides a historical overview and models of bilingual education in the United States. Students will examine sociocultural, theoretical, and policy issues associated with native language and second-language instruction, and legal requirements for public bilingual program.

EDS 126. Social Organization of Education (4)

(Same as Soc/C 126) The social organization of education in the U. S. and other societies; the functions of education for individuals and society; the structure of schools; educational decision-making; educational testing; socialization and education; formal and informal education; cultural transmission. *Prerequisite:* upper-division standing.

EDS 127A-B-C. Practicum in Interactive Computing (4-4-4)

The course focuses on interactional computing in teaching/learning. Course work concentrates on interactive computing, application to teaching, learning, bilingualism, and communication. Concurrent with course work, students are assigned to a school or community field site implementing interactive computing. Students will write research reports integrating course work and field experience. (F,W,S)

EDS 128 A-B. Introduction to Teaching and Learning (Elementary) (4-4)

This course series is for undergraduates who are exploring a career in elementary school teaching. Topics addressed include: theories of teaching and learning; research on cognition and motivation; and the cultural context of classroom teaching and learning. EDS 128A focuses on the learner in the teaching-learning interaction and EDS 128B focuses on the teacher in the teaching-learning interaction. Prerequisites: department stamp required; EDS 139 must be taken as corequisite. EDS 130 or 134 must be completed before EDS 128A, and 128A for 128B. EDS 128A and EDS 128B are restricted for students applying to the EDS M.Ed/Multiple Subject Credential Program.

EDS 129 A-B-C. Introduction to Teaching and Learning (Secondary) (4-4-4)

This course series is for undergraduates who are exploring a career in teaching secondary school. Topics addressed include: theories of teaching and learning processes and motivation for science, mathematics, and English instruction. EDS 129A focuses on the analysis of the needs of individual learners and small group instruction techniques; EDS 129B emphasizes the various roles of the classroom teacher and planning individual lessons; and EDS 129C emphasizes the assessment of student work and longerrange curriculum planning. Prerequisites: department stamp. EDS 139 must be taken as corequisite. Must have successfully completed EDS 136, 138, or 129A for 129B. and 129B for 129C. EDS 129B and 129C are restricted for students applying to the EDS M.Ed./Single Subject Credential Program.

EDS 130. Introduction to Academic Mentoring of Elementary/School Students (4)

This course focuses on the role of undergraduate mentors in raising academic expectations for students and families traditionally underrepresented at the university. The relationship between the school and community, the social and political organization of elementary schools, and the academic achievement of elementary children are examined. Prerequisites: department stamp required. EDS 139 must be taken as a corequisite.

EDS 134. Introduction to Literacy and Numeracy Tutoring (4)

This course examines effective practices for language arts and mathematics learning for elementary school children. The field experience and seminar focus on the tutor/student relationship, teaching and learning processes for literacy and numeracy, and community service. *Prerequisites: department stamp required. EDS 139 must be taken as a corequisite.*

EDS 136. Introduction to Academic Tutoring of Secondary School Students (4)

This course focuses on the role of undergraduate tutors in building academic resiliency in secondary students traditionally underrepresented at the university. The relationship between the school and community, the social and political organization of secondary schools, the philosophical, sociological, and political issues which relate to the U.S. secondary educational system, and the academic achievement of secondary children are examined. Prerequisites: department stamp required. EDS 139 must be taken as a corequisite.

EDS 138. Introduction to Academic Tutoring at the Preuss School (4)

This course focuses on effects of the Charter School movement on public education in the U.S., the role of the research universities in K-12 education, the social and political organization of the schools, the philosophical, sociological, and political issues which relate to the U.S. secondary educational system, and the academic achievement of secondary children. Students investigate the role of undergraduate tutors in building academic resiliency in secondary students traditionally underrepresented at the university. Prerequisites: department stamp required. EDS 139 must be taken as a corequisite.

EDS 139. Practicum in Teaching/Learning (2)

Students are placed in local schools and work with students in classrooms and the community. Students work on educational activities with K-12 students a minimum of four hours/week. *Prequisites: department stamp required. One of the following courses (may be taken concurrently) EDS 109, or EDS 127A-B-C, or EDS 128A-B, or 129A-B-C, or 130, or 134, or 136, or 138.*

EDS 142A. ASL-English Bilingual Education Practices (4)

Students will examine the history, current theory, philosophy, legislation, and trends in deaf education. Methods of first- and second-language development, communication, and literacy skills for deaf and hard-of-hearing children will be introduced. *Prerequisites:* EDS 115, EDS 117, EDS 126, EDS 128A, EDS 128B. Must be a TE81 major. (F)

EDS 142B. ASL-English Bilingual Education Practices (2)

Students will investigate formal and informal assessment techniques used for deaf and hard-of-hearing children, bilingual/multicultural education practices across the curriculum, effective learning environments and approaches for educating and interacting with families and communities. Prerequisites: EDS 142A, EDS 161A. Must be a TE81 major. (W)

EDS 142C. ASL-English Bilingual Education Practices (2)

Students will continue to investigate formal and informal assessment techniques used for deaf and hard of hearing children, bilingual/multicultural education practices across the curriculum, effective learning environments and approaches for educating and interacting with families and communities. Prerequisites: EDS 142A, EDS 142B, EDS 161A. Must be a TE81 major.

EDS 149. Deaf Education Specialist Student Teaching Practicum (9)

Education specialist credential candidate performs student teaching in participating schools for a minimum of seven weeks full-time under the supervision of a cooperating teacher and university supervisor. The field experience provides professional preparation and diversified teaching responsibilities for post-

baccalaureate students pursuing the California Deaf and Hard of Hearing Specialist and BCLAD Credential. Prerequisites: must be a TE81 major only—an affirmed Multiple Subject candidate at UCSD who has advanced to student teaching.

EDS 151. Teaching the English Language Learner (4)

Students will examine the principles of second language acquisition and approaches to bilingual education. They will develop a repertoire of strategies for teaching in elementary or secondary content areas. *Prerequisite: TE81 or TE85 major code.* (F)

EDS 152A. Bilingual Instructional Practices (2)

History and models of bilingual education; socio-cultural issues associated with second language instruction, legal requirements for public school bilingual programs, native language and ESL teaching methods. First course in a two-course sequence. *Prerequisite: TEB5 major code.* (F)

EDS 152B. Bilingual Instructional Practices (2)

History and models of bilingual education; socio-cultural issues associated with second language instruction, legal requirements for public school bilingual programs, native language and ESL teaching methods. *Prerequisite: TEBS major code.* (Su,W)

EDS 155A. Advanced Mathematics Teaching Practices for Grades K-6 (2)

Provides a theoretical and practical grounding in pedagogy and professional factors influencing high-quality elementary mathematics education. Students will review research literature and various content standards, assessment materials, and curriculum materials in preparation for specialized mathematics instruction in elementary classrooms. Prerequisites: admission into the TEBS: Multiple Subject (MS-2 program), and concurrent enrollment in EDS 161A or consent of instructor.

EDS 155B. Advanced Mathematics Teaching Practices for Grades K-6 (2)

Provides a theoretical and practical grounding in pedagogy and professional factors influencing high-quality elementary mathematics education. Students will review research literature and various content standards, assessment materials, and curriculum materials in preparation for specialized mathematics instruction in elementary classrooms. Prerequisites: EDS 155A, admission into the TE85: Multiple Subject (MS-2 program), and concurrent enrollment in EDS 161B or consent of instructor.

EDS 155C. Advanced Mathematics Teaching Practices for Grades K-6 (2)

Provides a theoretical and practical grounding in pedagogy and professional factors influencing high-quality elementary mathematics education. Students will review research literature and various content standards, assessment materials, and curriculum materials in preparation for specialized mathematics instruction in elementary classrooms. Prerequisites: EDS 155B, admission into the TE85: Multiple Subject (MS-2 program), and concurrent enrollment in EDS 161C or consent of instructor.

EDS 161A. Innovative Instructional Practices (6)

First course in a three-course sequence. It provides pedagogical methods for multiple-subject teaching. Diverse subject areas (math, science, fine arts, P.E., and social studies) are integrated into a single intercurricular course of study by emphasizing activity/inquiry techniques of instruction. *Prerequisite: must be a TE81 or TE85 major.*

EDS 161B. Innovative Instructional Practices (6)

Second course in three course sequence. It provides pedagogical methods for multiple subject teaching. Diverse subject areas (language arts, English language development, health education, mathematics, sciences, social studies, fine arts, and physical education) are integrated into a single intercurricular course of study by emphasizing activity/inquiry techniques of instructions. *Prerequisities: EDS 161A; TE81 or TE85 major.*

EDS 161C. Innovative Instructional Practices (4)

Last course in a three course sequence. It provides pedagogical methods for multiple subject teaching. General teaching methods are integrated into a single intercurricular course of study by emphasizing activity/inquiry techniques of instruction. *Prerequisites: EDS 161B, must be a TE81 or TE85 major.*

EDS 169 A-B. Multiple Subject (Elementary) Student Teaching Practicum (9-9)

The elementary credential candidate performs student teaching in participating schools for seven to eight weeks full-time for each course (fifteen weeks total) under the supervision of a cooperating teacher and university supervisor. The student teaching experience offers professional preparation and diversified teaching responsibilities for post-baccalaureate students pursuing the California Multiple Subject Teaching Credential. Prerequisites: TE81 or TE85 major. Affirmed Multiple Subject Credential candidate at UCSD who has advanced to student teaching.

EDS 173. Secondary English Teaching Practices (4)

The course introduces prospective secondary teachers to principles and strategies of teaching English language arts. Topics include: writing processes, reading processes, integrated language arts, assessment, the second language learner, the classroom community, the California English Language Arts Framework. Prerequisite: TE85 major code or consent of instructor.

EDS 174. Secondary Mathematics Teaching Practices (4)

Mathematics teaching techniques including, curriculum design, California Model Curriculum Standards, instructional methods, computer applications, selection and use of textbooks, student assessment, lesson planning, and classroom organization. Professional matters including curriculum planning, professional organizations, para-professionals, professional ethics, education law, and parent involvement are addressed. Prerequisite: TE85 major code or affirmed credential candidate or approval of instructor. (Su)

EDS 175. Secondary Science Teaching Practices (4)

Science teaching techniques, including science curriculum design, California Model Curriculum Standards, instructional methods, computer applications, selection and use of textbooks, student assessment, lesson planning, and classroom organization. Professional matters including curriculum planning, professional organizations, para-professionals, professional ethics, education law, and parent involvement are addressed. *Prerequisite: TE85 major or approval of instructor.* (Su)

EDS 176. Language and Learning Instruction (4)

This course satisfies the California Commission on Teacher Credentialing requirement for preparation in reading theory and methods for all credential candidates. Theories of reading development, integration of the language arts, reading and writing in the content areas, teaching methods, and literature. *Prerequisite: TE85 major code.*

EDS 179 A-B-C. Single Subject (Secondary) Internship Practicum (8-8-8)

The secondary credential candidate teaches approximately one academic quarter for each course in this series (one public school academic year) under the guidance of a university supervisor with additional support provided by an on-site teacher. The internship offers extensive professional preparation and diversified teaching experience under actual classroom conditions for post-baccalaureate students pursuing the California Single Subject Teaching Credential. Prerequisites: TE85 major. Affirmed Single Subject internship credential candidate at UCSD.

EDS 181. Health Education (4)

This course satisfies the Commission on Teacher Credentialing requirement for Health Education. Topics include: physical education, substance abuse, sex education, cardio-pulmonary resuscitation, nutrition, and first aid. *Prerequisite: TE81 or TE85 major code.*

EDS 182. Inclusive Educational Practices (4)

This course satisfies the Commission on Teacher Credentialing requirement for Special Education. Topics include: teaching methods for accommodating special-needs students in the regular classroom, developing an Individual Education Plan, characteristics of special-needs students, lesson planning to accommodate individual differences, and legislated mandates. *Prerequisite: TE81 or TE85 major code.*

EDS 185. Elementary School Mathematics Content and Pedagogy (4)

Examines the underlying mathematical concepts of the elementary school mathematics curriculum and related pedagogical implications for teaching. Topics include number concepts, algebraic thinking, geometry, and data collection and analysis. Prerequisite: students must be TEBS majors: M.Ed./Elementary-Multiple Subject Credential candidates who have advanced to student teaching. (MS-2).

EDS 190. Research Practicum (1-6)

Supervised research studies with individual topics selected according to students' special interests. Students will develop a research proposal and begin to gather and analyze data. *Prerequisite: consent of instructor.* (F.W.S)

EDS 195. Apprentice Teaching (2-4)

Advanced EDS students are prepared in effective methods of supervising the preparation of UCSD students serving as paraprofessionals in K-12 classrooms. Topics covered include: classroom management, interpersonal relations, supervision techniques, multi-cultural and multi-lingual education, politics in the school, and curriculum development. Each student serves as a discussion leader and conducts at least two workshops. *Prerequisites: department stamp required and TE79 or TE80 major code.*

EDS 198. Directed Group Study (4-2)

Directed group study, guided reading, and study involving research and analysis of activities and services in multicultural education, bilingual education, the teaching-learning process, and other areas that are not covered by the present curriculum. *Prerequisite: consent of instructor.*

EDS 199. Special Studies (4)

Individual guided reading and study involving research and analysis of activities and services in multicultural education, bilingual education, the teaching-learning process, and other areas that are not covered

by the present curriculum. Prerequisite: consent of instructor.

GRADUATE

Soc. 270. The Sociology of Education (4)

A consideration of the major theories of schooling and society, including functionalist, conflict, critical, and interactional; selected topics in the sociology of education will be addressed in a given quarter, including: the debate over inequality, social selection, cultural reproduction and the transition of knowledge, the cognitive and economic consequences of education. Major research methods will be discussed and critiqued.

EDS 201. Introduction to Resources for Teaching and Learning (4)

This course introduces students to educational resources, both in print and on-line. Students compile and evaluate research studies, curricular materials, and instructional approaches in preparation for future projects in developing and evaluating various approaches to teaching and learning. Prerequisite: students must be registered EDS graduate students.

EDS 203. Technology, Teaching, and Learning (4)

This course will review current literature on effective applications of technology in the classroom. Students will also become fluent in the use of productivity tools, presentation software, and Web development for teaching and learning; critique software relevant to their area of teaching; and develop an educational activity based on their review of the literature that harnesses the power of technology. Prerequisite: students must be registered EDS graduate students.

EDS 204. Technology and Professional Assessment (4)

Advanced techniques for using network-based resources for teaching and learning will be introduced. Students will review relevant research on advanced technologies related to assessment of professional performance and student achievement. Students will present a Web-based professional Teaching Performance Assessment Portfolio that reflects teaching performance during their student teaching or internship field experience. Prerequisite: students must be registered EDS graduate students.

EDS 205A. Reflective Teaching Practice (2)

This course introduces principles and practices of reflective teaching. Student teachers and interns will systematically document their practice teaching and analyze observation data to improve performance. Students will collaborate with supervisors and expert teachers throughout the yearlong preservice teaching experience. Prerequisites: students must be registered EDS graduate students.

EDS 205B. Reflective Teaching Practice (2)

This course introduces principles and practices of reflective teaching. Student teachers and interns will systematically document their practice teaching and analyze observation data to improve performance. Students will collaborate with supervisors and expert teachers throughout the yearlong preservice teaching experience. Prerequisites: EDS 205A, and students must be registered EDS graduate students.

EDS 206. Teaching Performance Assessment Portfolio (4)

This course introduces the use of a Teaching Performance Assessment Portfolio for assessment of teaching performance. Student teachers and interns will design an electronic portfolio that demonstrates acceptable performance on essential credential standards. National Board of Professional Teaching Standards will also be introduced. Prerequisite: students must be registered EDS graduate students.

EDS 229. Introduction to Educational Resources (4)

This course prepares K-12 teacher-researchers to design, implement, and evaluate classroom research. Students learn how to access and evaluate research studies, curricular materials, and instructional approaches both on-line and in print. *Prerequisite: students must be registered TE76 majors*.

EDS 230A-B-C. Research on Curriculum Design (4-4-4)

A year-long course sequence which provides an extensive overview of curriculum design principles appropriate for K–12 instruction. Consensus and model building methods will be discussed using case studies of curriculum research and development projects appropriate for various subject areas and grade levels. Participants will design, implement, and evaluate a curriculum project in their own classrooms. Prerequisite: must be TE76 major or consent of instructor. (F,W,S)

EDS 231. Advanced Instructional Practices (4)

Selected advanced topics in K–12 instructional practices in various subject areas. Techniques for teaching higher-level cognitive processes and advanced applications of computers and other technology will be stressed. Participants will conduct a field study of promising teaching practices appropriate to their grade level(s) and subject area(s) of instruction. Prerequisite: must be TE76 major or consent of instructor. (St.)

EDS 232. Special Topics in Education (4)

This course explores topical issues in education. It focuses on recent developments which have broad implications for research and practice in teaching and learning. Course topics will vary each time the course is offered. *Prerequisite: TE76 major or consent of instructor.*

EDS 233A. Topics in Education Research and Design (2)

Current topics and issues in education and educational research methodology, including action research, participant observation, ethnography, and survey research. This is the first in a two-course series. Prerequisite: TE76 major or consent of instructor.

EDS 233B. Topics in Education Research and Design

Current topics and issues in education and educational research methodology, including action research, participant observation, ethnography, and survey research. This is the second in a two-course series. Prerequisite: EDS 233A and TE76 major or consent of instructor.

EDS 240A. Research in ASL-English Bilingual Education (4)

A three-course sequence in which participants conduct an overview of research and design and conduct a study related to bilingual, bicultural education for deaf children. Prerequisite: TE81 major: Teaching and Learning Bilingual Education (ASL-English) or consent of instructor.

EDS 240B. Research in ASL-English Bilingual Education (4)

A three-course sequence in which participants conduct an overview of research and design and conduct

a study related to bilingual, bicultural education for deaf children. Prerequisites: EDS 240A, and TE81 major: Teaching and Learning Bilingual Education (ASL-English) or consent of instructor.

EDS 240C. Research in ASL-English Bilingual Education (4)

A three-course sequence in which participants conduct an overview of research and design and conduct a study related to bilingual, bicultural education for deaf children. Prerequisites: EDS 240A/EDS 240B, and TE81 major: Teaching and Learning Bilingual Education (ASL-English) or consent of instructor.

EDS 241. Advanced Topics in Deaf Education (2)

Topics in human development and education that relate to deaf and hard-of-hearing children and the relationship between home, community/culture, and classroom. Prerequisite: TE81 major or consent of instructor.

EDS 250. Equitable Educational Research and Practice (4)

This course introduces students to research studies and educational practices of educational equity, both in general and within specific content areas. Research studies relevant to educational equity will be examined, as will practices that have attempted to enable all students to achieve to the best of their abilities. Prerequisite: students must be registered EDS graduate students.

EDS 260A. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational-research questions a variety of methodologies, including survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. This is the first of a three-course series. Prerequisite: admission into the Ed.D. program or consent of instructor.

EDS 260B. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational-research questions a variety of methodologies, including survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. This is the second of a three-course series. *Prerequisites: EDS 260A, and admission into the Ed.D. program or consent of instructor.*

EDS 260C. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational research questions a variety of methodologies, including survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. This is the third of a three-course series. *Prerequisites: EDS 260B, and admission into the Ed.D. program or consent of instructor.*

EDS 261A. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the first of a three-course series. Prerequisite: admission into the Ed.D. program or consent of instructor.

EDS 261B. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the second of a three-course series. Prerequisites: EDS 261A, and admission into the Ed.D. program or consent of instructor.

EDS 261C. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the third of a three-course series. *Pererequisites: EDS 261B, and admission into the Ed.D. program or consent of instructor.*

EDS 262A. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the first of a three-course series. *Prerequisite: admission into the Ed.D. program or consent of instructor.*

EDS 262B. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the second of a three-course series. *Prerequisites: EDS 262A, and admission into the Ed.D. program or consent of instructor.*

EDS 262C. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the third of a three-course series. *Prerequisites: EDS*

262B, and admission into the Ed.D. program or consent of instructor.

EDS 270. Leadership and Equity in Educational Reform (4)

This course provides a framework for understanding school reform movements that integrates relevant theory and research from a number of academic disciplines. *Prerequisite: admission into the Ed.D. program or consent of instructor.*

EDS 271. Language and Diversity in the Schooling Process (4)

This course examines current research and theory which relate language and diversity to educational outcomes. Topics addressed include the development of language and literacy in schools and other settings, socio-cultural perspectives on language learning, and implications for educational policy and practice. Prerequisite: admission into the Ed.D. program or consent of instructor.

EDS 272. Education and Culture (4)

This course examines schooling from an anthropological perspective, focusing on the impact of social and cultural forces on teaching and learning in U.S. public schools using comparative materials from other societies and settings. *Prerequisite: admission into the Ed.D. program or consent of instructor.*

EDS 273. Research in Teaching and Learning: Reading and Writing (4)

This seminar will address current theories and research on the teaching and learning of reading and writing, as well as how research can be used to analyze and foster effective teaching practices. *Prerequisite:* admission into the Ed.D. program or consent of instructor.

EDS 274. Research in Teaching and Learning: Mathematics (4)

This seminar will address current theories and research on the teaching and learning of mathematics, as well as how research can be used to analyze and foster effective teaching practices. *Prerequisite: admission into the Ed.D. Program or consent of instructor.*

EDS 275. Research in Teaching and Learning: Science (4)

This seminar will address current theories and research on the teaching and learning of science, as well as how research can be used to analyze and foster effective teaching practices. *Prerequisite: admission into the Ed.D. Program or consent of instructor.*

EDS 276. Research in Teaching and Learning: English Language Learning (4)

This seminar will address current theories and research on the teaching and learning of second-language learning, as well as how research can be used to analyze and foster effective practices in teaching English to non-native speakers. *Prerequisite: admission into the Ed.D. Program or consent of instructor.*

EDS 277. Research in Teaching and Learning: History and Social Sciences (4)

This seminar will address current theories and research on the teaching and learning of social sciences, as well as how research can be used to analyze and foster effective teaching practices. *Prerequisite: admission into the Ed.D. Program or consent of instructor.*

EDS 278/COGR 278. Talking Culture, Culture Talking: Voices of Diversity (4)

This course explores the discourse of culture in American society and the problem of "silenced" or unheard voices. The interaction of individual and collective voice, language, and identity are discussed as they bear on the ways that culture moves through important social institutions such as schools. Of particular interest are issues of teaching, learning, displacement, inclusion, marginality, and the "speaking center." Prerequisite: graduate status or consent of instructor.

EDS 280. Re-Thinking Leadership (4)

This course will present the evolution of leadership thought and theory, with an emphasis on the distinction between, and interrelatedness of, effective management and leadership. The ethics of leadership practice and epistemological perspectives of emerging leadership styles will be explored, and students will have opportunities to reflect on the nature of leadership as it is practiced in educational settings. Applying critical, self-reflective leadership practice through structured activities is also an element of this course.

EDS 281. Leadership for Learning (4)

This course will explore various models of curriculum and instruction in response to students' learning needs. It also will examine models of school organization and the leader's role and responsibility in developing a school culture that promotes student achievement, using evidence-based decision-making. A major emphasis will be on evaluating research on which theories and practice are based. Prerequisite: joint Ed.D. in Educational Leadership student status.

EDS 282. Leadership for a Diverse Society (4)

This course will address theories and practices for achieving schools and classrooms that are informed by and built around the participation of diverse communities and cultures. The emphasis is on how leadership intersects with sociohistorical and sociocultural theories that suggest that the organization of schools and instruction is critical to student inclusion and outcomes. A basic premise of this course is that a socially just learning theory begins with using all of the resources and knowledge of families, communities, and cultures in formulating policy and practice. Prerequisite: joint Ed.D. in Educational Leadership student status.

EDS 283. Leadership for Organizational Change (4)

This course will present multiple theories of organizational change, explore group processes and identify models of decision-making, and analyze human motivation theories. Establishing and nurturing a purposedriven organization, while dealing with competing demands, will be discussed. A major emphasis in this course is on people as agents of change and on the creation of high-quality ethical and productive work-places where employees can achieve success and satisfaction, while advancing the mission of the educational organization. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 284. Leadership for Organizational Development (4)

This course will investigate the skills and dispositions needed for students to lead the development of learning organizations. Faculty will teach and model concepts of working with people within educational organizations and programs. Emphasis will be placed on individual's team development and facilitation,

organizational communications, adult learning, and professional development. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 285. Leadership for the Future (4)

This course addresses interdisciplinary influences on leadership practice within learning organizations. Contributions from scholars in futures' studies, including those influenced by modernism and postmodernism, will be used to explore topics such as long-range planning, demographic trends, technology, and brain theory. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 286. Advanced Topics in Leadership (4)

This course explores topical issues in the field of leadership. It focuses on recent developments that have broad implications for research and practice in educational leadership. Course topics will vary each time the course is offered. Prerequisite: joint Ed.D. in Educational Leadership student status.

EDS 287A. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational-research questions a variety of methodologies, including experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. This is the first in a three-course sequence. Prerequisite: TEP Education Doctorate student or consent of instructor.

EDS 287B. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational-research questions a variety of methodologies, including experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. *Prerequisites: EDS 287A, and TEP Education Doctorate student or consent of instructor.*

EDS 287C. Educational Research and Evaluation Design (4)

This course integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational-research questions a variety of methodologies, including experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. *Prerequisites: EDS 287B, and TEP Education Doctorate student or consent of instructor.*

EDS 288A. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda to develop skills needed in proposal writing: develop-

ment, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the first in a three-course series. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 288B. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda to develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the second in a three-course series. Prerequisites: EDS 288A, and joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 288C. Advanced Research and Evaluation Methods (4)

This course addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda to develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. This is the third course in a three-course series. Prerequisites: EDS 288B, and joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 289A. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the first in a four-course series. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 289B. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the second in a four-course series. *Prerequisites: EDS 289A, and joint Ed.D. in Educational Leadership student status or consent of instructor.*

EDS 289C. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also include writing for professional publications and presenting research findings to varied audiences. This is the third in a four-course series. *Prerequisites: EDS 289B, and joint Ed.D. in Educational Leadership student status or consent of instructor.*

EDS 289D. Dissertation Writing Seminar (4)

This seminar provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed will also

include writing for professional publications and presenting research findings to varied audiences. This is the fourth course in a four-course series. Prerequisites: EDS 289C, and joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 290. Research Practicum (1-6)

Supervised research studies with individual topics selected according to students' special interests. Students will develop a research proposal appropriate for M.A. thesis, begin to gather and analyze data. *Prerequisites: M.A. candidate and consent of instructor.* (S/U grades only.)

EDS 291A. Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the first in a three-course series. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 291B. Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the second course in a three-course series. *Prerequisite: EDS 291A, and joint Ed.D. in Educational Leadership student status.*

EDS 291C. Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the third course in a three-course series. *Prerequisite: EDS 291B, and joint Ed.D. in Educational Leadership student status.*

EDS 292. Qualifying Paper Preparation (2)

This course will provide students with time, resources, and guidance for the purpose of developing a review of literature on a student-related topic, which typically becomes the focus of the dissertation research project. Students will be expected to use a variety of research tools in order to discover and identify relevant information. (S/U grade permitted)

EDS 293A. Advanced Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the first course in a three-course series. Prerequisite: joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 293B. Advanced Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the second course in a three-course series. Prerequisite: EDS 293A, and joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 293C. Advanced Leadership Research Practicum (2)

Students use their placements in local schools and educational settings to examine leadership research

and practice topics raised in the Leadership core courses and Research and Evaluation Design/Methods courses. This is the third course in a three-course series. Prerequisite: EDS 293B, and joint Ed.D. in Educational Leadership student status or consent of instructor.

EDS 294A. Colloquium on Educational Leadership (2)

Program faculty and visiting lecturers present leadership research in progress. Serves as a forum to discuss current research in educational leadership. This is the first course of a two-course series. Prerequisite: graduate student status or consent of instructor.

EDS 294B. Colloquium on Educational Leadership (2)

Program faculty and visiting lecturers present leadership research in progress. Serves as a forum to discuss current research in educational leadership. This is the second course in a two-course series. Prerequisite: EDS 294A, and graduate student status or consent of instructor.

EDS 295. MA Thesis (1-8)

Research for the Master's thesis (Educational Research) or Curriculum Design Portfolio thesis (Curriculum Design). Open for repeated registration up to eight units (S/U grade only). Prerequisite: consent of instructor

EDS 297. Directed Group Study (1-6)

Study and analysis of specific topics under the guidance of a faculty member. Offered for repeated registration. *Prerequisite: consent of instructor.*

EDS 298. Independent Study (1-6)

Individual guided study and/or independent research in an area not covered by present course offerings. Offered for repeated registration. *Prerequisite: consent of instructor.*

EDS 299. Dissertation Research (1-12)

Directed research on dissertation topic for students who have been admitted to candidacy for the Ed.D. degree. May be repeated for credit. *Prerequisite: admission into the Ed.D. program.*

EDS 500. Apprentice Teaching in Education (2-4)

The course, designed for graduate students serving as teaching assistants in teacher education courses, includes discussion of teaching theory and practice, instructional materials, organization of discussion sections, liaison with participating schools, and methods of evaluation/grading under the supervision of the instructor of the course.
